YEAR 9

Independent learning to be completed during school closure

ICT

During a two week period you would ordinarily have:

2 ICT lessons

Lesson 1 – Computer Gaming 1

Is computer gaming bad for you?

Some people think computer gaming damages young people both mentally and physically.

Research the GOOD and NEGATIVE views on computer gaming. Here are two links to get you started:
https://www.express.co.uk/life-style/life/623643/Computer-gaming-children-Christmas
https://kidshealth.org/en/kids/video-gaming.html

Present these points – you can choose how (eg table, spider diagram, bullet points)

Lesson 2 – Computer Gaming 2

You are to produce 2 speeches. One will argue that computer gaming is bad and should be banned for young people. The other will argue that it is good and should be encouraged.

You need to use the findings from Lesson 1 in both responses.

You can decide how to present the work. You could produce 2 PowerPoint slides or use a Word document.

If you require further information please email:
