

YEAR 7

Independent learning to be completed during school closure

FOOD & TEXTILES

During a two week period you would ordinarily have:

2 food or textiles lessons. Complete both activities below

Lesson 1 – Festivals and cultures

1. Choose one of the following festivals to research, you will produce either a PowerPoint or booklet about your chosen festival:
Christmas (Christian), Easter (Christian), Pesach (Jewish- Passover), Diwali (Hindu & Sikh), Yom Kippur (Day of Atonement -Jewish), Rosh Hashanah (Jewish).
2. What is important about the festival you have chosen? You should include:
 - The main reason for the festival
 - How people celebrate the festival
 - Typical foods that are eaten during the festival
3. Choose one food item and find a recipe on line to create this. Copy and paste the link into your work or write it in your booklet.
4. Either create the dish at home or find images of the dish on line. Write a review on this and describe what you think about the results you have seen. What makes it effective? How do you think the dish could be improved?

Lesson 2 – Recycling and upcycling

1. You need to find out about recycling fabric and textile related items. Create a magazine article or a multimedia presentation - this could be a video or a podcast.
You should include the following in your article or presentation:
 - Why we need to recycle fabric and other textile items?
 - What things can be recycled?
 - Images or descriptions of recycled items that are either fabric or another textile item
2. Design either a snack, make up or toilet/wash bag that will be made entirely from recycled materials. Annotate your design fully showing the items you have recycled and how you have used them.
3. Write a plan showing how you would make your bag. This can be either as a 'method' (like a recipe) or as a flowchart.
4. Make a full list of all the items you will need to use.
